JUNIORGLO® (80955AAA)

Developed for the breeding farm, Forage First® JUNIORGLO is enhanced with a unique mineral complex for balanced stomach pH and optimal bone growth for foals, growing horses, and broodmares. Forage First JUNIORGLO gives foals the best start to keep them growing strong.

PRIMEGLO® (81578AAA)

Developed for the mature horse, Forage First PRIMEGLO has the right amount of vitamins and minerals with less calories. Forage First PRIMEGLO gives your equine friend the nutrition they need in half the amount of other feeds. Forage First PRIMEGLO allows you to feed the best for the prime stage of their life.

POWERGLO® (120AB)

Developed for the elite performance horse, Forage First POWERGLO is the feed for today's equine athlete. Forage First POWERGLO provides the power that performance horses need to be competitive day after day. The feed of choice for your partner in the ring, over the rail, or in the pen to perform at their best.

SENIORGLO® (10130AB)

Developed for the active senior horse, Forage First SENIORGLO has the right nutrition of specially selected and combined ingredients to meet nutritional challenges of many senior horses. Forage First SENIORGLO lets you feed the best to the one you love the most during their best years.

ADM's **Forage First**® **GLO** feeds are ultra-premium feeds for your equine partner for every stage of life. Our **Forage First** philosophy means starting with the highest-quality forage available, which is then fortified with vitamins, minerals, protein, and low-starch energy sources for your horse's specific needs. Each bag of **GLO** feed also includes GROSTRONG® minerals, Inside Tract™ (a unique supplement to optimize hind gut health), Butyric Acid, Omega Flax™, and Natural-Source Vitamin E. Allowing you to **feed the BEST to the one you love the MOST.**

FORAGE FIRST® GLO FOR LIFESM

PATRIOT®

Patriot® Feeds are formulated with today's performance horse in mind. Patriot feeds utilizes GROSTRONG® Vitamins & Minerals, multiple sources of high-quality protein, quality grains, highly digestible fiber sources, added vegetable fats, and direct fed microbials to provide balanced nutrition. With this combination, horses can be healthy and perform at their best with less risk of metabolic and digestive disorders.

Patriot® Mare & Foal (80022AAA)

Patriot Mare & Foal is a high-quality, palatable, pelleted feed, which provides 16% protein and no more than 14% fiber. Patriot Mare & Foal is a feed specifically designed for gestating and lactating broodmares and foals up to 18 months of age.

Patriot® Feed Easy® Complete (80128AAA) is a high-quality, complete, pelleted forage-feed mix, which provides 14% protein and 24% fiber max. Patriot Feed Easy Complete provides a substantial amount of highly digestible fiber, allowing it to be fed without additional forage when fed according to label directions. It is an ideal product to use when forage supplies are scarce or of inferior feeding value. Patriot Feed Easy Complete is suitable for mature horses, working horses, and broodmares.

Patriot® Performance (80021AAA) is a high-quality, palatable, feed, which provides 14% protein and no more than 20% fiber. Patriot Performance is a feed specifically designed for mature performance horses, working horses and broodmares.

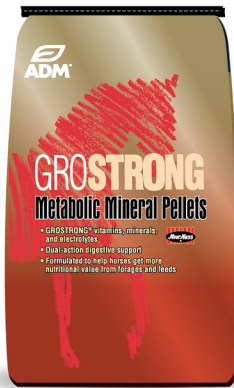

Patriot® Quick Performance™ (81820AAA) is a high-quality, palatable, pelleted feed specifically formulated for mature, athletic horses that need a more calorie dense feed with a quicker release of glucose compared to other Patriot Performance Horse Feed products. It provides 14% protein, 10% fat, and no more than 17% crude fiber and can also be fed to broodmares.

Patriot® Senior Complete (80029AAA) is a high-quality, complete, forage feed in easy-to-chew pellet form, which provides 14% protein and no more than 20% fiber. It is formulated to meet the special nutrient needs of senior horses and provides a substantial amount of highly digestible fiber, allowing it to be fed without additional forage when fed according to label directions. It is an ideal product to use for senior horses.

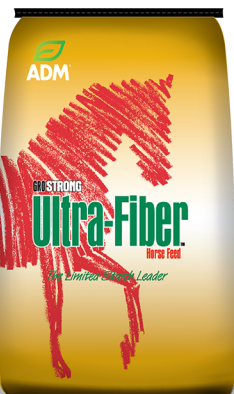

GROSTRONG® Vitamins & Minerals (641,642) provides minerals and vitamins (including biotin and salt) to complement forages and grains, enabling horses to reach their performance potential. Mineral and vitamin content of forages varies greatly, so supplementation is required. Along with good-quality forage, GROSTRONG Vitamins & Minerals provide the cornerstone of Forage First® programs. With Forage First programs horses can be healthy and perform at their best.

GROSTRONG® Metabolic Mineral Pellets (80935AAA) are built upon the rock-solid foundation of GROSTRONG® Vitamins & Minerals and enhanced with direct fed microbials to boost foregut efficiency, Prospanse® brewers dried yeast known to improve digestibility of forage components in the hindgut, and CitriStim®, an ADM proprietary feed ingredient that may favorably impact the gut microbial populations and body defense mechanisms.

GROSTRONG® 33 Ration Balancer (594AAA) provides the necessary amino acids, minerals, and vitamins to complement forages and grains, enabling horses to reach their performance potential. GROSTRONG 33 Ration Balancer combines the advantages of GROSTRONG® Vitamins & Minerals with high-quality amino acid sources, direct fed microbials, Prospanse® brewers dried yeast known to improve digestibility of forage components in the hindgut, and CitriStim®, an ADM proprietary feed ingredient that may favorably impact the gut microbial populations and body defense mechanisms.

GROSTRONG® Ultra-Fiber™ (558AB) horse feed is a highly palatable, controlled-starch, vitamin-mineral fortified, pelleted feed suitable for all classes of mature horses. When fed with good-quality forage, this feed meets the protein, energy, vitamin, and mineral requirements of most mature horses.

GROSTRONG® PRO-VITA-MIN 20-5 Tub

(11228) provides the necessary protein, minerals, and vitamins to complement forages and grains, enabling horses to reach their performance potential. It is an ideal product for meeting nutrient needs under situations that make it difficult to individually supplement horses on a daily basis, such as with pasture or range conditions. It is a good choice for supplementing free-choice to mature horses on pasture or range. Also, it helps meet nutrient needs of yearlings, two-year-olds, gestating broodmares, and lactating broodmares. PRO-VITA-MIN 20-5 Tub combines the advantages of GROSTRONG® Vitamins & Minerals with high-quality protein sources. It is the result of unsurpassed formulation expertise and leading edge technology. Over 100 years of formulation and manufacturing expertise back the reliability and nutritional soundness of PRO-VITA-MIN 20-5 Tub. PRO-VITA-MIN 20-5 Tub, a Forage First® Vitamin and Mineral Product, is a key component of the Forage First program. Forage First programs combine good-quality forage, GROSTRONG vitamin-mineral products, and energy-based products, when needed, to produce balanced total rations. With this combination of feeds, horses can be healthy and perform at their best when fed less grain than they would receive from traditional horse rations. Consequently, horses are at less risk of metabolic and digestive disorders and DOD that may result from high-starch intake.

With over 100 years of history in each bag, horse owners can trust Tindle Trails™ horse feeds to provide the basic nutritional needs of their horses at a competitive price.

ACES™ (81813AAA2G) is a unique, amino acid supplement for equine of all ages and performance levels. It supports muscle development and helps maintain muscle mass. ACES combines Cell Rate® with amino acids that help supply an athletic horse with nutrients needed for strength, health, and stamina. Use in sale prep, for horses that need extra stamina, or to help enhance muscle quality.

Forage First® Summer Care (81885AAA) is a unique blend of Thermal Care™, Garlum, and Cell Rate® to help support your horse through the hot summer months. Available in a 30 day, 90 day, or free-choice tub option.

Cellarator® Turbo Paste (8279005) is a unique, 3-in-1, fast-acting, oral paste that combines the power of Cell Rate® with probiotics, electrolytes, and vitamin E to support performance, deter dehydration, and provides nutritional support needed during stress.

MOORGLO® (11083AAA) (extruded pellet) provides concentrated calories (18% fat) from stabilized rice bran, vegetable oils, and ground flax seed. It also provides natural-source vitamin E (500 IU/lb) and Prospanse® Yeast. MOORGLO is formulated to help add body condition to thin horses and contributes to hair coat shine and bloom.

HEALTHY GLO® Nuggets (81064AAA) (20% fat in extruded nugget form; 40 lb bag) provide concentrated calories from stabilized rice bran and ground flax seed. Contains natural-source vitamin E (1,000 IU/lb); replaces some or all of the grain in typical horse rations; provides the needed calories and reduces the risk of digestive and metabolic disorders when compared to feeding large amounts of grain.

Forage First® GS (81870AAA) provides needed nutritional support for optimal gastric health. Its unique triple action blend of ingredients support a healthy gastric pH while helping protect and strengthen the stomach lining. The unique mineral complex in combination with Lecithin and chicory root and alfalfa combine to support the gastric environment during suboptimal conditions. Available in a 20 lb pail or a 40 lb bag.

Inside Tract™ (81814AAA78) combines Cell Rate® with ingredients known to provide nutritional support for gastrointestinal health, a combination of direct fed microbials, CitriStim®, Prospan® yeast, and PremiDex™ to help support and maintain a positive gastrointestinal environment, and provide nutritional support needed during stress.

Don't let
gastric
discomfort
STOP your
next ride.

I have used **Forage First® GS** on multiple client's horses with diagnostically verified clinical symptoms attributed to poor gastric health. The results have been a **reliable resolution of symptoms** and verified improvement in visible signs of a balanced gastric environment. **Forage First GS** is an affordable and effective way to optimize gastric health in my equine patients.

At ADM Animal Nutrition we believe horses should be fed the way nature intended, with large amounts of forage making up the majority of the diet. That is why we always put Forage First®. We also understand that today's equines require more than forage can provide (no matter how good). That is where the ADM Forage First products come in. Designed to provide the essential nutrients that are lacking in forage, ADM products can meet the needs of your equine partner without loading them up on the unnecessary things their bodies can't use. Feed the BEST to the one you love the most, Feed Forage First, feed ADM, feed the way nature intended.
